Subject: RE: PFAS Data

Reeder,

Unfortunately, I am going to be on travel starting this afternoon through next week.

Although I agree that the focus of the presentation should be on the planned studies, I think the work I sent you from Tamara and Earl can be summarized in one or two slides and believe it should be presented. Ex. 5 Deliberative Process (DP)

Ex. 5 Deliberative Process (DP)

I am sure both of them would be willing to work with you to boil their work down to 1-2 slides.

Ron

Subject: RE: PFAS Data

Ron,

Thank you for inviting me to speak in your session. In thinking this through it makes sense for me to present on the tiered toxicity testing approach, within ORD and collaboration with NTP. This would likely fill the time allotted for a presentation (15-20 minutes) and I would be comfortable with the information. With respect to Tamara's and Earl's work, I don't think I would be the right person to present their data. If you like we can discuss further, maybe after our biweekly PFAS tomorrow.

Best Regards,
Reeder

Subject: FW: PFAS Data

Reeder,

Per Tamara's note below, these data should be available for the Feb 5-6 meeting. If her hypothesis is correct, this will be an interesting story.

Hi Ron,

They are saved at O:\ORD Short Term (30 day) Network Storage\Tal to Hines

Please delete the folder once you take them.

Thanks,

Tamara

Subject: PFAS Data

Good evening,

I noted that the slides and data you sent me earlier was in a PDF format. To make it easier on Reeder Sams in preparing a talk that includes your data, would you mind sending me the PowerPoint slides?
